Art Unit 3749

DETAILED ACTION

Priority

Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Specification

The abstract of the disclosure is objected to because it is longer than 150 words.

Correction is required. See MPEP § 608.01(b) and 37 CFR 1.72(b).

In paragraph 0024, it is unclear what "rectified" modifies.

In paragraph 0026, line 7, "14" should be "24."

Allowable Subject Matter

The following is a statement of reasons for the indication of allowable subject matter: The prior art considered does not disclose, singly or in combination, the combination of elements of claim 1 including a sustaining relay for providing an alternative path of conduction with respect to the flame detection switch. The prior art considered also does not disclose, singly or in combination, the combination of elements of claim 2 including a sustaining relay comprising an operating coil having one end connected to the other end of a first valve coil and the other end grounded, and a pair of contacts respectively connected across said flame detection switch.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Kim et al. (US 6810602), Williams, Jr. (US 5009588), Burke (US 4325689), and Algino (US 3026932) disclose various burner circuit arrangements.

This application is in condition for allowance except for the formal matters indicated under the heading "Specification" above.

Prosecution on the merits is closed in accordance with the practice under *Ex* parte Quayle, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO**MONTHS from the mailing date of this letter.

Contact Information

Any inquiry concerning this or earlier communications from the examiner should be directed to Sara Clarke whose phone number is 571-272-4873. The examiner normally can be reached Mon-Fri, 8:30-1:00. 1029X3

If attempts to reach the examiner by phone are unsuccessful, the examiner's supervisor, Ira Lazarus, can be reached at 571-272-4877. The fax number for the organization where this application is assigned is 703-872-9306.

Status information for an application is available from the Patent Application Information Retrieval (PAIR) system. Status information for published applications is available from Private or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about PAIR, see http://pair-direct.uspto.gov. For questions on access to Private PAIR, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
